

Math 10 Unit 1 Review Activity

The class will be split into 6 groups of 4-5. Each group will be assigned a chapter.

TODAY: Friday December 4th:

In these groups you will prepare:

- A mini lesson (5-10 minutes) that you will present to half the class which will include
 - o Working out a problem together
 - o Explaining the important/difficult concepts
- A "FACT SHEET"
 - o A word document that has important concepts explained. Pictures may be included but are not necessary.
- You will create 1 mathematical problem, with solution.

MONDAY December 7th:

- You will present your mini lesson to two other groups (If you are chapter 1 yellow you present to chapter 2 and 3 yellow)
- You will hand in your Fact Sheet.
- And hand in the question and solution

TUESDAY December 8th:

- You will write the practice quiz created by your classmate's questions, then continue studying.
- Your solutions will be shared at the end of the class.

WEDNESDAY December 9th:

- You will write the Unit 1 Exam, with at least 1 of the class provided problems on the test.
